HIGH QUALITY FACEPLATE

- AEI faceplate is made of <u>acrylic</u> instead of paper card, it provides high quality visual and touching experience.

- All images and characters are printed from the inner side, therefore daily cleaning will not fade the printing.

- A room number sheet is pasted on the inner side. it is easy to change the room number or replace the faceplate for maintenance purpose.

- All information on the faceplate are customizable, includes hotel information, icons, and dialing instructions.
